

LCT Paintspraycleaner

LCT Paintspraycleaner

Manual and automatic spray gun cleaning

The LCT Paintspraycleaner is a compact cleaning station for painting tools and spray guns. Cleaning in explosion-proof areas can be done both manually and automatically. Flow- and suction cup guns can be cleaned automatically. Afterwards, the cleaned guns can be blown dry by means of an air shower. The integrated suction device and the hood minimize odours effectively, thus guaranteeing a clean workplace.

- ▶ **Manual and automatic cleaning also in explosion-proof areas**
- ▶ **Simultaneous automatic cleaning of two spray guns at a time**
- ▶ **For flow- and suction cup guns**
- ▶ **Subsequent air shower**
- ▶ **Option of manual cleaning by means of a flow brush**
- ▶ **Can be closed with a hood**
- ▶ **Integrated sedimentation- and filter unit**
