

Stainless-Steel top piece with LCT bio.x A 100

The stainless-steel top piece for LCT bio.x A 100 with its large work surface and high payload (up to 1000 kg) offers exceptional working comfort. It is ideally suited for the cleaning of big and heavy parts, and its particularly large work surface (1500 x 950 mm) can be used by two operators at the same time. The stainless-steel top pieces feature a conical drain with a sieve filter and a big filter (25 µm) PE grids for surface protection are available as an optional extra.

500 kg or 1000 kg
