

LCT small parts cleaning series C

The **series C** is a modified version of the standard series W type 40 / 60 / 80, as combined machine with turning table washing basket and removable turning device with small parts basket.

On the horizontal turning table washing basket also larger washing goods, big modules, non-scooping parts and parts, that must not be turned, can be cleaned automatically.

Inside the removable turning device with integrated small parts basket scooping parts, small parts with holes and drills, sensitive parts and bulking goods will be cleaned. Sensitive washing goods can be fixed by intermediate and clamping covers inside the small parts basket, to avoid damages during the turning process.

All machines of the **series C** can be equipped with components, accessories, filter systems, rinsings and dryings etc. from the basic series W.

The cleaning machines of this series can be operated in the warm/watery area (series W) or in an special version also with cold cleaning agents/solvents (series K) or with an indirect heating for the use of a mixture of 20 % hydrocarbon and 80 % water.

Technical data LCT small parts cleaning series C

Type	W 40 C	W 60 C	W 80 C
Basket diameter (mm) turning table washing basket	400	600	800
usable interior height (mm) turning table washing basket	220	370	500
Measures (mm) small parts basket turning device	350 x 150 x 160	375 x 220 x 200	475 x 320 x 200
Filling capacity from (l)	30	50	90
Spraying pressure from (bar)	1,1	1,8	2,8
Basket loading (kg) turning table washing basket	70	100	150
Basket loading (kg) small parts basket turning device	12	30	30
Weight from (kg)	60	80	120
Outer measures width (mm)	900	1100	1300
Outer measures depth (mm)	450	650	850
Outer measures height (mm)	700	850	1000
