

Technical Datasheet

LCT Handreiniger-Fluid

Friction-free, very highly concentrated, liquid hand cleaner with over 90 % biodegradable detergent substances and a special skin protection agent.

LCT Hand Cleaner - Fluid foams well, dissolves quickly in water, does not smear and does not block drains. LCT Hand Cleaner - Fluid is used especially where abrasive substances are not desired in the hand cleaner. As a result, this hand cleaner is guaranteed not to clog drains. The high cleaning power

- even with the heaviest soiling
- is achieved through the use of a medical "bio-alcohol" and a very high surfactant concentration.

Texture

Yellowish, viscous substance with lemon scent, without rubbing agent

Composition

Anionic, non-ionic and amphoteric surfactants, skin protection agents, fragrances, colorants and preservatives, alcohol preservatives, alcohol, water, additives.

Active washing substance:

Approx. 24 % pH value:

Approx. 6.5 Density:

Approx. 1 g/ml
