

Technical Datasheet

LCT Solar- und Photovoltaikanlagenreiniger

Areas of application:

LCT Solar and Photovoltaic System Cleaner is a water-based, highly effective cleaning concentrate. cleaning concentrate, which is specially designed for removing environmental photovoltaic systems.

Properties:

- liquid
- pleasant odor
- Highly concentrated cleaner
- designed with the environment in mind
- VOC - reduced
- label-free
- non-flammable

Application method:

Depending on the degree of soiling, apply undiluted or mixed with water (1:10 - 1:40) to the surfaces to be cleaned using a sprayer.

Sprayer onto the surfaces to be cleaned. After a reaction time of approx. 5 minutes, the dissolved dirt is rinsed off with a water jet. When mechanics (brush, sponge, etc.), the required concentration and contact time are reduced. and the contact time are reduced.

Technical data:

Boiling point: 98°C / Melting point: 0°C

Density: ~ 1.04 g/mL (20°C) / pH value: ~12

Shelf life: 12 months at +2°C to +30°C dry and sealed

Ingredients according to EC Regulation 648/2004 :

non-ionic surfactants / aliphatic hydrocarbons : < 5 %

Hazardous ingredients: 2- Butoxyethanol: 1-5 %

VOC 1999/13/EC: 5 % VOC (CH) : 5%

Supplementary documents:

EU Safety Data Sheet

Disposal:

Waste code number: 070601

Contaminated solutions must be sent for suitable waste water treatment.
